History of the Garden Club

The Aptucxet Garden Club was founded in 1938. Over the years our club has made a commitment to improving Bourne through civic plantings, education programs, and scholarships. We continue with these goals and missions to this day.

The Club is a member of both the Garden Club Federation of Massachusetts and the National Garden Club. It has been our honor to be the recipient of numerous state and national awards.

Members are committed to promoting and continuing our mission through active participation. The club's interests are in floral design, horticulture, and landscape gardening. In addition, we are dedicated to aiding in conservation of trees and all natural resources through education, civic work, and fundraising.

We invite you to become part of our history.
